The suitable for use with adults 18 years and older. Standardized answer sheets can be manually tagged with templates that fit on answer sheets, but most tests are machine-tagged. The control group for the original test consisted of a very small portion of the population, mainly young, white, married from rural areas. C. Individuals between 18 and 80 years of age were recruited to be included in the samples. The current MMPI-2 has 567 items, all in true or false format, and usually takes 1-2 hours to complete, depending on the reading level. McKinley, MD, provided the corrected K-pattern Validity and Profile Single Scale.
